# Introducing "Geospatial San Diego"

Geospatial San Diego is a networking group for people with careers and interests in the geospatial industry in San Diego County.

Robust Ecosystem

The geospatial ecosystem in San Diego is robust, but fragmented, touching aspects of…

Federal Government

Academia

Industry

State Government

Our Purpose

The focus of this networking group is to bring together geospatial professionals from all corners of this community in fun, social settings to share information, help build relationships, and strengthen the social fabric of our San Diego geospatial community.

Our tempo…

- Weekly posts to LinkedIn with geospatial news and updates relevant to the San Diego region.

  - All members are welcome to post news and events

- One event per month (that's the goal), with various types of events…

  - One social gathering per quarter
  - One co-hosted / combined event per quarter
  - One lunch-and-learn event per quarter (hosts and speakers needed)

Sample event #1

- Co-hosted by Imagin' Labs and Caltech
- Approx. 50 attendees
- Lunch-and-learn style with presentations from 6 technology firms
- Social at nearby pub hosted by PIXIA afterwards

Sample event #2

- Hosted by Aerospace Corporation

- Approx. 200 attendees

- Main presentation by CA GIO – Scott Gregory

- Live UAV and GIS demonstration event (see video)

- No-host social at nearby pub afterwards

Please join us…

- Our next event is cohosted with CGIA and Geospatial LA:

    - On Monday, July 14th (after ESRI Map Gallery)
    - Details coming soon on LinkedIn…
