

COUNTY OF SAN DIEGO
invites applications for the position of:

Senior Geographic Information Systems Analyst-20350610

SALARY:	\$75,400.00 - \$92,684.80 Annually
OPENING DATE:	10/26/20
CLOSING DATE:	11/05/20 11:59 PM
JOB SUMMARY:	

SENIOR GEOGRAPHIC INFORMATION SYSTEMS ANALYST

The County of San Diego is currently accepting applications for a Senior GIS Analyst. Employees in this job class serve as a lead or supervisory level job class responsible for providing technical guidance and leadership to professional staff and may supervise GIS staff within a department.

MINIMUM QUALIFICATIONS

1. A **bachelor's degree** from an accredited U.S. college or university, or a certified foreign studies equivalency, in geography, earth sciences, civil engineering, urban planning, information technology, biology with an emphasis in GIS, computer science, or closely related field, **OR**, successful completion of a college level GIS certificate program; **AND, three (3) years** of full-time experience as a GIS Analyst with the County of San Diego administering and operating a GIS system using ArcGIS Desktop or Server or similar type software to develop GIS data, digital maps, or other digital displays for spatial analysis; **OR, four (4) years** of full-time experience administering and operating a GIS system using ArcGIS Desktop or Server or similar type software to develop GIS data, digital maps, or other digital displays used for spatial analysis.

NOTE: A master's degree from an accredited U.S. college or university, or a certified foreign studies equivalency in any of the fields described above may substitute for **one (1) year** of the required experience; **OR**, additional years of experience as described above may be substituted for the education/certification requirement on a year-for-year basis.

For additional information on the Senior GIS Analyst class, please click [here](#).

IDEAL CANDIDATE PROFILE

The ideal candidate will have significant experience using advanced geospatial data science for qualitative and quantitative analysis to identify issues, define the mechanics of a problem, and recommend solutions based upon data driven analysis. The ideal candidate will use his or her thorough knowledge to provide decision support and technical guidance on geoprocessing methods. The best candidate is expert in GIS and data workflow scripting in python, ArcGIS Pro analytics, and spatial statistics. The Senior Geographic Information Systems Analyst is expected to use specialized knowledge and skills to lead GIS projects with continuous improvement methodologies.

EVALUATION

Qualified applicants will be placed on a **twelve (12) month** eligible list based on scores received during the evaluation of information contained in their employment applications. Please ensure all information is accurate as the responses you give will be scored using an automated evaluation system. If you are successful in the initial screening process, your application will be reviewed individually to confirm that the information you provided is accurate and qualifying.

ACCOMMODATION

Reasonable accommodation may be made to enable qualified individuals with disabilities to perform the essential functions of a job, on a case-by-case basis.

The County of San Diego and its employees embrace the Live Well San Diego vision: A region that is Building Better Health, Living Safely and Thriving. Click here for more information www.livewellsd.org.

Under California Government Code Sections 3100 - 3109, public employees are designated as **disaster service workers**. The term "public employees" includes all persons employed by the state or any **county**, city, state agency, or public district. Disaster service workers are required to participate in such disaster service activities as may be assigned to them by their employer or by law.

The County of San Diego is committed to valuing diversity and practicing inclusion because our diverse workforce is our greatest asset and our customers are our number one priority.
