

Agenda

Geodatabase Committee Meeting San Diego Regional GIS Council January 20, 2004

**SANDAG
8th Floor Conference Room B
1:00 – 3:00 pm**

1. Introductions
2. Presentation by ESRI on the Geodatabase
 - Planning for the migration to a geodatabase
 - SDE vs. personal geodatabase
 - Tips and tricks
3. Introduction to ESRI data models
4. Building a regional “data exchange template” for GIS layers
5. Mission Statement for the Committee
6. Other issues – Open Discussion/Announcements
7. Next meeting

Topics for future meetings:

- a. Presentations from agencies/users who have already made substantial progress in implementing a geodatabase (City of Encinitas, others?)
- b. Composite geocoder and the Address data model
- c. Utility data models
- d. Parcel data models
- e. Review of other ESRI data models
- f. Progress of County Assessor’s database restructuring
- g. SanGIS role in developing a parcel data model to facilitate data exchange with other agencies.
