

# Agenda

---

**Geodatabase Committee Meeting  
San Diego Regional GIS Council  
November 10, 2005**

**SANDAG  
Conference Room 8B  
400 B St  
1:00 – 2:30 pm**

---

1. Introductions
  2. GeoSpatial Solutions article regarding Data Modeling and Regional Cooperation
  3. Data model standards: SDSFIE or URISA's new standard or ?
    - Presentation by Eileen Goff, Geomorphis
    - As a region, the question is would it be beneficial for us to build a regional standard for everyone to be able to write to? Can we adopt a national standard for our region? The standard would not be what most agencies would use "natively" but be ready to convert to this standard for regional data sharing.
    - If so, what layers should we start with?
  4. Other issues – Open Discussion/Announcements
  5. Next meeting
